Butternut Squash & Freezing Cider

Butternut Squash is one of our favorite fall vegetables. It has a sweet and nutty flavor and is delicious when roasted! Our favorite way to prepare it is simple. Just peel and cut into 1/2 in. squares, drizzle with olive oil or coconut oil and add some brown sugar, honey, or maple syrup to your liking. Roast at 400 degrees for 15-20 min. Yum!

Freezing apple cider is a great way to preserve your cider to enjoy at a later time. We love to freeze some and pull it out around Thanksgiving or Christmas to enjoy with family! All you need to do is drink a little bit from the top of the carton (to make room for expansion) and put it in your freezer (upright). When thawing, be sure to remove it from the freezer with enough time to let it thaw completely. Shake it up and enjoy!

Harmony Acres Dairy

We continue to have Harmony Acres Dairy products available weekly. Place orders by 10am Thursday morning.
