This Week's Highlight: Apple Cider & Corn

This week, we are giving you some fresh-pressed apple cider from last season that we pressed and then froze. Make sure to let it thaw completely and shake before you drink as the apple pieces tend to settle on the bottom. It will last for 5-7 days in your fridge. We take our apples to a press each week in September and October. Our cider's only ingredient is Stone Church Acres apples! It goes through a UV light for pasteurization which helps to kill any bacteria present, but also keeps the flavor intact. We hope that you enjoy it! This week, due to a crop issue, we reached out to our friends at Yarnik's to supply the corn! Our corn field ended up having small ears with only half of the kernels, so we had to pivot and find another way to get everyone some yummy corn!

Harmony Acres Dairy

We continue to have Harmony Acres Dairy products available for pickup during CSA hours on Friday and Saturday. Submit your order via this link. Orders are due by 5pm on Wednesday night. We sometimes have a few things available for purchase in the market if you forget to order!
